

Jack Hansjee

Aspiring Full-stack JavaScript Developer

 jansg08 |  Jack Hansjee |  jack@hansjee.com |  07443 019 881 |  London

SUMMARY

A keen interest in problem-solving has manifested itself in the pursuit of a software development position aided by the strong communication and analytical skills developed through the Northcoder's bootcamp. Proven to be a fast learner and a hard worker through time there as well as during a year out in a rare opportunity as a senior member of an auction house, managing and developing their technology platform.

SKILLS

Programming Languages	Javascript - in Node.js and the browser
Testing	TDD (Test Driven Development), Jest, Supertest
Back-end	Express.js, PostgreSQL
Front-end	HTML, CSS
Hosting	Cloudflare, Supabase, Render
CI/CD	GitHub Actions
Other	Paired programming, technical communication

PROJECTS

Project 1

– Project bullet 1

TECHNICAL EXPERIENCE

Head of Information Technology, Hotlotz Auctioneers

Jun 2020 – Aug 2021

Responsibilities

- Purchasing and maintaining IT infrastructure within the saleroom and offices
- Negotiating supplier contracts for long-term technological-related needs
- Supporting customers with queries regarding the website and the bidding process for online auctions
- Incorporating customer feedback to improve the website's user experience

Achievements

- Project managed a major overhaul of the company's website and online bidding platform
- Oversaw complete redesign of the website's frontend and a ground-up rebuild of the backend to improve the efficiency of stock-tracking
- Liaised with a software development company over nine months using design mock-ups to clearly impart the Managing Director's Vision
- Assisted the accounting department in preparing the company to become tax-registered by creating a pricing tool that allows the commission structure to be reverse-engineered using a desired net profit figure.

- Skills
- Fostered open and articulate communication through frequent paired programming
 - Cultivated a thorough understanding of core JavaScript nuances and the Node.js runtime
 - Developed robust solutions through extensive use of test-driven development
 - Garnered a unique insight into client-server relations through a detailed full-stack curriculum

OTHER INTERESTS

- Responsibilities
- Training junior cadets in core skills such as drill and theory of flight
 - Resolving conflicts arising between cadets and promoting social behaviour
- Achievements
- Built a comprehensive training structure to create a more engaging experience for cadets
 - Received an award recognising outstanding community service by the Lord Lieutenant of Greater London
 - Completed the ‘Master Cadet’ course consisting of principles of flight and propulsion theory
 - Completed the ACLC, the highest badge earned for leadership within the ATC

EDUCATION

3 A Levels at Tanglin Trust School (A, A, B)	2018 – 2020
10 GCSEs at The Harrodian School	2016 – 2018
