

# Jack Hansjee

*Software Development in Javascript*

 jansg08 |  Jack Hansjee |  jack@hansjee.com |  07443 019 881 |  London

## SUMMARY

---

A keen interest in problem-solving has manifested itself in the pursuit of a software development position aided by the strong communication and analytical skills developed through the Northcoder's bootcamp. Proven to be a fast learner and a hard worker through time there as well as during a year out in a rare opportunity as a senior member of an auction house, managing and developing their technology platform.

## SKILLS

---

Programming Languages	<b>Javascript - in Node.js and the browser</b>
Testing	<b>TDD (Test Driven Development), Jest</b>
Back-end	<b>Express.js</b>
Front-end	<b>HTML, CSS</b>
Hosting	<b>Cloudflare</b>
Other	<b>Paired programming, technical communication</b>

## WORK EXPERIENCE

---

### Head of Information Technology, Hotlotz Auctioneers

Jun 2020 – Aug 2021

#### *Responsibilities*

- Purchasing and maintaining IT infrastructure within the saleroom and offices
- Negotiating supplier contracts for long-term technological-related needs
- Supporting customers with queries regarding the website and the bidding process for online auctions
- Incorporating customer feedback to improve the website's user experience

#### *Achievements*

- Project managed a major overhaul of the company's website and online bidding platform
- Oversaw complete redesign of the website's frontend and a ground-up rebuild of the backend to improve the efficiency of stock-tracking
- Liaised with a software development company over nine months using design mock-ups to clearly impart the Managing Director's Vision
- Assisted the accounting department in preparing the company to become tax-registered by creating a pricing tool that allows the commission structure to be reverse-engineered using a desired net profit figure.

## OTHER INTERESTS

---

**Sergeant, Air Training Corps**

Sept 2015 – Jul 2018

### *Responsibilities*

- Training junior cadets in core skills such as drill and theory of flight
- Resolving conflicts arising between cadets and promoting social behaviour

### *Achievements*

- Built a comprehensive training structure to create a more engaging experience for cadets
- Received an award recognising outstanding community service by the Lord Lieutenant of Greater London
- Completed the ‘Master Cadet’ course consisting of principles of flight and propulsion theory
- Completed the ACLC, the highest badge earned for leadership within the ATC

## EDUCATION

---
