

Jack Hansjee

Aspiring Full-stack JavaScript Developer

 jansg08 |  Jack Hansjee |  jack@hansjee.com |  07443 019 881

SUMMARY

A keen interest in problem-solving has manifested itself in the pursuit of a software development position aided by the strong communication and analytical skills developed through the Northcoder's bootcamp. Proven to be a fast learner and a hard worker through time there as well as during a year out in a rare opportunity as a senior member of an auction house, managing and developing their technology platform. Currently based in London, though flexible with relocation within the UK and Ireland where necessary.

SKILLS

Programming Languages	Javascript - in Node.js and the browser
Testing	TDD (Test Driven Development), Jest, Supertest
Back-end	Express.js, PostgreSQL
Front-end	HTML, CSS
Hosting	Cloudflare, Supabase, Render
CI/CD	GitHub Actions
Other	Paired programming, technical communication

PROJECTS

Project 1

Date from – Date to

Project 1 Section 1

– Project bullet 1

TECHNICAL EXPERIENCE

Northcoders

Sept 2024 – Nov 2024

Skills

- Fostered open and articulate communication through frequent paired programming
- Cultivated a thorough understanding of core JavaScript nuances and the Node.js runtime
- Developed robust solutions through extensive use of test-driven development
- Garnered a unique insight into client-server relations through a detailed full-stack curriculum

Head of Information Technology, Hotlotz Auctioneers

Jun 2020 – Aug 2021

Responsibilities

- Purchasing and maintaining IT infrastructure within the saleroom and offices
- Negotiating supplier contracts for long-term technological-related needs
- Supporting customers with queries regarding the website and the bidding process for online auctions
- Incorporating customer feedback to improve the website's user experience

Achievements

- Project managed a major overhaul of the company's website and online bidding platform
- Oversaw complete redesign of the website's frontend and a ground-up rebuild of the backend to improve the efficiency of stock-tracking
- Liaised with a software development company over nine months using design mock-ups to clearly impart the Managing Director's Vision
- Assisted the accounting department in preparing the company to become tax-registered by creating a pricing tool that allows the commission structure to be reverse-engineered using a desired net profit figure.

OTHER INTERESTS

Sergeant, Air Training Corps

Sept 2015 – Jul 2018

Responsibilities

- Training junior cadets in core skills such as drill and theory of flight
- Resolving conflicts arising between cadets and promoting social behaviour

Achievements

- Built a comprehensive training structure to create a more engaging experience for cadets
- Received an award recognising outstanding community service by the Lord Lieutenant of Greater London
- Completed the 'Master Cadet' course consisting of principles of flight and propulsion theory
- Completed the ACLC, the highest badge earned for leadership within the ATC

EDUCATION

3 A Levels at **Tanglin Trust School** (A, A, B)

2018 – 2020

10 GCSEs at **The Harrodian School**

2016 – 2018
